RESPONSIBILITIES

1. Maintaining and Operating Production Machines:

- Conduct regular inspections to ensure machines are functioning optimally.
- Perform preventive maintenance tasks to minimize downtime and ensure continuous operation of production equipment.

2. General Mechanics of Machinery, Cars, and Vehicles:

- Diagnose and troubleshoot mechanical issues in machinery, cars, and vehicles.
- Execute repairs and replacements of faulty parts using appropriate tools and techniques, ensuring safety standards are met.

3. **Bodybuilding Coaching:**

- Design personalized training programs tailored to individual clients' fitness goals and abilities.
- Provide guidance on proper exercise techniques, nutrition, and lifestyle choices to optimize clients' progress and overall health.

4. **Marketing:**

- Develop strategic marketing plans to promote products or services, utilizing a mix of online and offline channels.
- Analyze market trends and consumer behavior to identify opportunities for business growth and expansion, adjusting marketing strategies accordingly.
