

CHEMIST

Brian Mutemererwa

Hili Tower Block B, 602 Al Nahda, Al Bukhara Street, Sharjah, UAE

Phone: +971 52 217 2139

Email: mutemererwab@gmail.com

Nationality: Zimbabwean

Gender: Male

Visa status: Visit visa

Language: English (fluent speaking, reading and writing)

Age: years

Marital Status: Single

Driver's licence: Class 4

ABOUT

A highly creative and passionate chemical and processing engineer with 3+ years of working experience. Acquired extensive experience in mineral processing, project management, metallurgical consultancy, manufacturing (production) systems and ISO systems. Resourceful and well organized with excellent leadership and team building record. My eventual goal in career is to assume responsibility for the delivery of chemical and processing expertise at the same time improving engineering at large through innovations, also actively contributing to the overall success of any institution I work for.

SKILLS

Customer service	Exceptional
Communication	Excellent
Microsoft Office	Excellent
Interpersonal Skills	Very Good
Teamwork, Adaptable	Very Good
Analytic and problem solving	Excellent
MATLAB, SCADA	Very Good
HSEQ, HACCP, 6 Sigma	Excellent

Associations

Southern African
Institute of Mining and
Metallurgy

WORK EXPERIENCE

MathMuch Mining Solutions

November 2020 - September 2021

Position: Junior Minerals Chemist

- Designed and performed chemical experiments in a safe and effective manner, with focus on the health of colleagues and the environment
- Supported process optimization for existing processes and scale up of new plants
- Relayed results from chemical experiments via informal/formal conversations, written reports, or presentations
- Provided lab assistance to the production team to investigate production deviations
- Performed simulations and pilot plant tests

Ravecor Investments

November 2019 - November 2020

Position: Chemist

- Prepared compounds, test solutions and reagents to conduct tests and experiments, then advising and coordinating on test procedures
- Consulted with engineers on analysis, interpretation and development of tests
- Documented findings in technical papers and reports, preparing specifications and testing standards
- Prepared future safety plans based on past experiences and facts
- Clean and maintain laboratory instruments and equipment
- Assisted in training and overseeing employees on health and safety regulations

Metallon Corporation Ltd, Redwing Mine

January 2018 - March 2019

Position: Process Chemist Intern

EDUCATION

Midlands State University IlGweru, Zimbabwe

2015 - 2019

Bachelor of Engineering in Chemical and Processing Honours Degree

Rio Tinto Zhombe High School IlKwekwe, Zimbabwe

2008 - 2013

Advanced Level Certificate

Ordinary Level Certificate
