

MOHAMMAD RIYAS KM

WORK EXPERIENCE

Technical Associate

Oct 2023- May 2024

Pathfinder Enterprise Solutions Pvt Ltd

- My role involved critical services such as software installation, database connections, API and SFTP configurations, software editing and Excel documentation.
- I was responsible for creating monthly audit reports, which honed my skills in Excel, including pivot tables and key formulas.
- My communication skills have improved by having to speak with the IT heads of several brands for this assignment

Python full stack with Data Science Intern

Sep 2022- Sep 2023

Right Soft Options

- Completed a comprehensive internship in Python Full Stack Development and Data Science.
- Gained proficiency in various technologies, including: Python, Django, Flask, HTML, CSS, Bootstrap, JavaScript, React JS, jQuery, SQL, MongoDB
- Acquired skills in data science libraries such as: NumPy, Pandas, Matplotlib, Seaborn

PROJECTS

Kumar Cruises Official Website

Feb 2023

www.kumarcruises.com

Developed a comprehensive website for Kumar Cruise and Travels, Inc., enhancing online presence and customer engagement. Managed all aspects including testing, hosting, design, coding, and content creation independently.

Homspun

Mar 2022

Django project | Final year

Crafted an e-commerce platform empowering home-based entrepreneurs to sell handcrafted goods. Leveraged Python, Django, and MySQL to facilitate seamless transactions and knowledge sharing within the community.

EDUCATION

Bachelor of Computer Application

University of Calicut

Sree Kerala Varma Collage, Thrissur, Kerala

July 2019 - march 2022

This three-year program included six semesters with practical lab sections, covering key courses such as computer applications, programming, networking, administration, microprocessors, hardware, software, operating systems, and financial management. The curriculum also featured an internship program and an industrial visit, culminating in a final year live project, where I developed an e-commerce web application.
