Production Engineer

Essel Propack limited - Wada, Maharashtra

April 2018 to September 2020

Production Engineer At Essel Propack Seamless Wada. Believed to be the most ideal packaging solution for the cosmetic industry, due to its high aesthetic value and easy adaptability to numerous decorative forms, the seamless plastic tube business is an exciting horizon for the packaging industry. Through constant innovation, Essel has successfully been manufacturing and delivering plastic tubes to new and emerging sectors. Our acquisition of Arista Tubes, a leading manufacturer of plastic tubes in the United Kingdom, has helped us absorb comprehensive and cutting-edge knowledge and experience in the sector.

Seamless plastic tubes are used to package high-end, low-volume products in a range of industries. They offer enhanced shelf life for goods and help create a unique product identity. Extruded tubes offer an attractive and durable packaging solution for a variety of product lines. From custom coloured materials to high-end decoration techniques, Essel offers solutions that can be customized to any kind of product or market.

Structures Offered:

Monolayer options include LLDPE, LDPE, MDPE and HDPE. Multilayer options include co-extruded 2 layer sleeve, co-extruded 5 layer LLDPE sleeve with monolayer shoulder and co-extruded 5 layer HDPE sleeve with monolayer shoulder.

Job Duties & Responsibility:-

To ensure proper raw material mixing & feeding to the hopper and extruder.

To run the machine efficiently. Reduce the idle time and with max extrusion.

To produce quality product with minimum wastage.

Maintaining the production logbook & labeling, and wastage recording.

Maintain 5's Machine cleaning & surrounding and follow GMP.

Daily checklist and communication book to be maintained.

Coordination with shift supervisor and reporting to production manager.
