CAREER OBJECTIVE

- A highly motivated and hardworking individual looking for a responsible role that enables me to apply my industrial engineering skills in a reputable organization.

EDUCATION

August, 2017 to May, 2022	Bachelor of Applied Science in Industrial Engineering Technology Higher Colleges of Technology, Sharjah Women's College GPA: 3.88
May, 2017	Al Salama High School, UAE, 98.2

WORK EXPERIENCE

August, 31, 2023 to Present	Johnson Controls Umm Al Quwain, UAE Position: Estimation Engineer. Duties: Seeking quotations from sub vendors and sub-contractors, estimating in-house product costs, and estimating costs for engineering, labor, and project management. Supporting multiple tenders simultaneously, using estimation experience to co-ordinate with the client on specifications and technical clarifications ensuring submitting proposals that are competitive, meet requirements and are on time. Entering purchase orders into the company's ERP system. This involves a systematic approach to ensure accuracy in cost estimation and efficient project management. Additionally, I contribute to the maintenance of vendor databases within the ERP, meticulously applying all relevant details for comprehensive and organized record-keeping.
January, 31, 2023 – August, 31, 2023	Johnson Controls Umm Al Quwain, UAE Position: Logistics Administrator. Duties: Prepare certificates on origin that is issued from Chamber of commerce and economy department, enter order in system & follow the entry process, preparing presentation.
