

OBJECTIVE

To utilize my engineering skills and knowledge to contribute to the development of innovative solutions, collaborate with cross-functional teams, and continuously enhance my expertise in the field.

EXPERIENCE

JTI Sudan

2022 - 2024

Mechanical Specialist

Responsible for overseeing and coordinating the activities of a production line or assembly line, ensuring smooth operations, and ensuring that production targets are met.

Morouj Commodities Ltd, Sudan

2019 - 2021

Maintenance Engineer

I successfully completed a ketchup delivery for Navata Company. Following that, I took on the role of a maintenance officer. The production line was divided into cooker and universal machine packer sections. During my tenure, I was honored at a JTI forum and received appreciation for my work from regarding that discovery.

Savola Group Sudan - Savola Food Company

2014 - 2018

Automation technical support

After making significant progress in the mechanics division, I expressed my desire to switch to the electrical maintenance department; I was entrusted with the responsibility of conducting electrical maintenance on all machines within the factory.

For the first two years, I was responsible for maintaining and operating bottle blowing machines, specifically SIPA machines from Italy. I operated them, conducted maintenance in case of malfunctions, submitted detailed reports, and performed changeovers.

Leader Technology Group - Sudan

2011 - 2012

Quality Supervisor

I meticulously examined and ensured the superior quality of iron products, with a specific focus on square and circular pipes. My tasks involved conducting thorough inspections, implementing quality control measures, and adhering to established standards to guarantee the excellence of the final products.

ACHIEVEMENTS & AWARDS

I was honored for my outstanding achievement in doubling production project by improving and streamlining the ketchup manufacturing process.

EDUCATION

Jordanian Sudanese College for Science and Technology

2023

Bachelor of Science in Electrical Engineering (B.S.E.E.)

Sudan University of Science and Technology

2011

Mechanical Engineering Diploma

Second-class honours

MORWAN ALI, MECHANICAL ENGINEER

Khalidiya, Abu Dhabi, UAE

SKILLS

Excellent knowledge of Mechanical systems, products and materials.

Strong technical knowledge, problem-solving abilities, attention to detail, proficiency in equipment maintenance, and effective communication skills.

Strong technical background.

Excellent knowledge of applicable mechanical design and constructions.

Excellent oral and written communication skills.

Excellent command of Microsoft Office business solution (Excel, Word).

Ability to review and comment properly on necessary documentation.

Excellent understanding of specifications and Authority requirements.

Complete project understanding in given discipline, from start to hand-over.
